Allan Dymitri

Developer | JavaScript · HTML · CSS · Python · SQL

Belém, Brazil (open to relocation) • **github.com/alldy-dev** • **linkedin.com/in/allan-dymitri-882bbb33**

PROFESSIONAL SUMMARY

Developer focused on JavaScript, HTML, CSS, Python and SQL, with more than 10 years of background in telecommunications engineering and technology. I currently build SQL reports (Oracle) and custom web dashboards for ERP clients at Sankhya. Before that, at Stefanini (client: Vale), I built web interfaces and Python automations for monitoring tools. I have strong communication and client relationship skills, developed while working with clients in Brazil and abroad. I also bring experience in requirements gathering, and I am fluent in English and Spanish. For on-site or hybrid roles, I am open to relocation.

TECHNICAL SKILLS

- **Front-end:** JavaScript, HTML5, CSS3, DOM, events, Ajax and JSON, web dashboards
- **Databases:** SQL, Oracle, reports with iReport
- **Other:** Python (automation), Git and GitHub, Grafana, Zabbix, software testing
- **Generative AI:** use of AI tools (Claude, ChatGPT, Gemini and Copilot) for learning, code review and productivity
- **Business:** ERP implementation, requirements gathering, client support, project management

WORK EXPERIENCE

Sankhya — Implementation Analyst — Jan 2026 – Present

- Develop custom SQL reports on Oracle databases, using iReport, for clients of the Sankhya ERP.
- Build custom dashboards with HTML, CSS and JavaScript, tailored to each client's needs.
- Lead ERP implementations for clients in the states of Pará and Maranhão, from requirements gathering to delivery.

Stefanini (client: Vale) — Network Analyst — Jan 2024 – Jan 2026

- Developed web interfaces with HTML, CSS and JavaScript and Python automations for the Tools team (monitoring tools).
- Created Grafana dashboards and maintained configuration items (CIs) in Zabbix.
- Managed users and access in Zabbix, Grafana, BSM, NetBox, Netwiki, Cisco ISE and Vault.

Nokia (client: TIM) — Field Manager — Jul 2018 – Jan 2022

- Produced field test reports for the client's 2G, 3G and 4G networks.

Earlier experience in engineering and teaching — 2009 – 2018

- **HTCOM** — Consultant (2017–2018): managed and analyzed test reports for microwave and 4G projects.
- **Freelance engineer** (2016–2017): technical site visits and inspection reports for clients.
- **Private tutor** (2016–2018): English, Spanish and math lessons.
- **Samsung Eletrônica da Amazônia** — Engineer (2012–2015): planned and ran tests for TVs and air conditioners.
- **RJ Telecom** — Supervisor (2011–2012): led the fiber optic technical team and oversaw installations and tests.
- **Infocentro Fábrica da Esperança** — Computer instructor (2010); internships at ENET Engenharia (TIM 3G network) and UFRA (computer lab assistant), 2009.

EDUCATION

- MBA in Project Management — Fundação Getulio Vargas (FGV), 2020.
- Bachelor's degree in Telecommunications Engineering — IESAM (Estácio de Sá), 2010.

CERTIFICATIONS AND COURSES

- SQL Full Course for Beginners, From Zero to Hero – YouTube – 30h, 2026
- JavaScript – Curso em Vídeo – 40h, 2025
- Redes Cisco para Iniciantes – Udemy – 2.5h, 2025
- Git e GitHub – Curso em Vídeo – 20h, 2025
- Zabbix 7.0 – Zabbix Certified Specialist – Zabbix Training – 5 days, 2025
- Zabbix 7.0 – Zabbix Certified User (ZCU) – Zabbix Training – 1 day, 2024
- NDG Linux Unhatched English – Cisco Networking Academy – 8h, 2024
- Java Completo – Udemy – 55h, 2024
- SQL Impressionador – Hashtag Treinamentos – 88h, 2023
- Python Impressionador – Hashtag Treinamentos – 163h, 2023
- Intensivão de Python – Hashtag Treinamentos – 8h, 2023
- Python 3, Mundos 1, 2 e 3 – Curso em Vídeo – 120h, 2022
- HTML5 e CSS3 – Curso em Vídeo – 40h, 2022
- Learn SQL – Codecademy – 8h, 2022
- PTQS (Programa de Testes e Qualidade de Software) – Júlio de Lima – 85h, 2022
- Java POO – Curso em Vídeo – 40h, 2022
- Java Básico – Curso em Vídeo – 40h, 2022
- Algoritmo e Lógica de Programação – Curso em Vídeo – 40h, 2022
- Fundamentos do Teste de Software – TI Exames – 24h, 2022

BOOKS

- *JavaScript and jQuery: Interactive Front-End Web Development* — Jon Duckett, 2026
- *HTML and CSS: Design and Build Websites* — Jon Duckett, 2026
- *Getting Started with SQL* — Thomas Nield, 2026

LANGUAGES

- **Portuguese** — native.
- **English** — fluent; exchange program in Dublin, Ireland (2010); graduated from ASLAN (2009).
- **Spanish** — fluent; graduated from ASLAN (2016).

VOLUNTEER WORK

- **HTML and CSS instructor** — CoderDojo (Vale, Stefanini, Accenture, Emaús NGO), Sep 2024: taught web development to young people from low-income communities.
- **English conversation facilitator**, Aug 2024 – Jan 2026: created and led an after-hours English conversation group for coworkers who struggled with the language.
